## Database Verification

Verify Consistency	True
Verify every	1 day
Begin verifying at	02:00:00
Max Records	30000
Verification Method	Random Partners

## Advanced Settings

Log Detailed Events	False
Enable Burst Handling	True
Burst Queue Size	Medium
Database Path	C:\Windows\system32\wins\wins.mdb
Starting Version ID	4

# Replication Settings

Where multiple WINS servers are used on a network, they can be configured to replicate records in their databases to other servers. This can provide for additional resilience, performance and load balancing.

A replication partner can be added and configured as either a pull partner, a push partner or as a push/pull partner. The push/pull partner type is the default configuration.

---

## General Settings

Replicate only with partners	True
Overwrite unique static mappings (migrate on)	False

---

## Pull Replication

Start time	00:00:00
Intervals	0 Days, 0 Hours, 30 Minutes
